

PKC LEED Projects

With the growing interest in sustainability and other environmental-related issues, the number of LEED-certified projects our team has worked on has grown significantly over the last three to five years. Because of cost constraints, many schools cannot afford to pursue LEED Gold certified buildings but we work closely with clients to include as many LEED certified elements as possible in our designs so that certification could be pursued in the future. Examples of this include energy efficient equipment, variable fan drive motors to modulate the speed of exhaust fans, food pulpers and more.

Below is a list of projects in which PKC was the foodservice programming and/or design consultant that are LEED certified or have applied for LEED certification:

- ◆ Black Hill State University Renovated Student Union – LEED Gold
- ◆ Clarion University New Dining Hall LEED Silver
- ◆ Armstrong Atlantic State University Dining Hall Renovation LEED Silver
- ◆ Dana Farber Cancer Institute Cafeteria Renovation – LEED Silver
- ◆ University of Richmond Heilman Dining Center Renovation – LEED Silver
- ◆ Slippery Rock University New Dining Hall – LEED Silver
- ◆ Community College of Philadelphia Dining Venue Renovation
- ◆ University of North Carolina Greensboro Dining Hall Renovation
- ◆ Penn State Pollock Dining Hall Renovation
- ◆ Camp Pendleton Marine Base Edson and Chappo Dining Halls
